

61 KEYS BOARD TEACHING ENECTRONIC KEYBOARD

INSTRUCTION MANUAL

Thank you for purchasing "Yongmei" YM-828 electronic keyboard, which is rich in expressiveness, versatile, elegant, easy to learn and use. It is an ideal instrument for beginners, music education and entertainment. In order to make better use of its functions, please read this manual carefully before using.

#### Feature functions

- 61 Piano- Styled keys / LCD Display
- With USB Music Payer
- Support Audio Input
- 300 Timbres / 300 Rhythms
- 30 Demo Songs / 2 Teaching Modes
- 61 Keyboard Percussion /8 Panel Percussion/Split / Metronome
- Master Volume Control / Accompaniment Volume Control / Transposition / Tempo
- Record / Program/ Playback/Demo one / Demo all/Sustain / Vibrato
- Start/Sop / Fill in/Single Finger / Fingered Chord/Bass chord/Chord off
- External Power/ External Earphone Jack/ External Microphone Jack /Line Out

### Precaution

- The specified adapter is only used. Using the wrong adapter may result in instrument damage and overheating. If the A/C adapter cord or the plug becomes frayed or is damaged, there is a sudden loss of sound while the instrument is played and the unusual smells or adapter plug from the outlet, the instrument must be inspected by qualified technician.
- After the power button is pressed, the power of the keyboard is turned off and the plug must be taken off in order to avoid burning the internal parts or arising fire because of long connection with the power.
- The plastic packing bag must be kept in a safe place in order to avoid the suffocation when a kid amuses itself by putting its head into it.
- The keyboard surface should be kept clean to avoid the eye winkers into the instrument through the small openings of the switch or gaps between the keys.cleaning the appearance of the keyboard with soft cloth is necessary at fixed time and the keyboard is kept away from water vapor.
- The instrument must not be exposed in the strong sunlight for a long time.
- The keyboard must be put in a dry place when it is not used. Strong vibration or collision is forbidden in order to avoid the damage of the frame or the internal parts.
- The instrument must be kept away from the acidity or alkaline places and it is forbidden to play the instrument under the eroding gas circumstance in order to prevent poor contact from circuitry oxidation.
- The electronic keyboard is a precise instrument, any modification may result in malfunction. Once the failure happens, the keyboard must be taken to a professional aftersale service department or experienced technicians for maintenance. It is forbidden to dismantle or assemble the components inside the keyboard at will.

POWER

### A. The usage of battery

Open the battery compartment cover on the bottom of the keyboard, insert 8 sizes (1.5v) batteries, the same polarities as the signs shown on the bottom, replace the cover.

After the battery is exhausted and the voltage reaches a range of value, the keyboard is unsounded or timbre sound get lost. The battery (8 sizes) must be changed. If the battery is not used for a long time, the batteries must be taken out to avoid component damage.

## B. The usage of A/C adapter

Use only the YONGMEI AC adapter to power your instrument from AC mains. The method to use

the AC adapter is to put one end into the jack at the back of the keyboard and the other into the outlet of AC mains.

### C. The usage of external terminal ports.

Microphone input: Plug the microphone plug into the port, than you can use while playing the keyboard.

Line out: Insert the plug of the speaker into [speaker] socket, and the performance effect will be enhanced.

Earphone output: Plug the earphone plug into the port, in order to avoid influencing other people while the keyboard is learned.
